

# PROGRAM SHOWCASE

## CRAFTING TALES OF COLLABORATION AND GROWTH

### PROGRAM SHOWCASE

A collaborative, community-based event attended by faculty, staff, administration, and board members to engage with our Programs' goals, challenges, and opportunities. The Program Showcase is part celebration, part reflection, and all silo-busting.

### INFORMED BY PROGRAM REVIEW

At COD, we complete Program Enhancement Plans (PEPs) as an annual program review. The Showcase begins there by allowing us to hold ourselves accountable and share the work we've done. The Showcase puts a megaphone to the PEPs.

### COMPLIANT WITH AB1725

Our faculty were craving a way to highlight their successes and find solutions after completing their PEPs. The Showcase gives them this space publicly and collaboratively while adding another facet to mandated Program Review.

### STORYTELLING

As each program shares their story, it becomes clear what matters to their students. The Showcase is an organic experience where presenters have the space to review their programs their way. Our programs exist with but also beyond data and it is the people who shepherd them that truly make our college shine.

### SHARING SOLUTIONS

As all stakeholders gather in one place, solutions are easier to find. Perhaps another program has already been through this problem. Maybe there is a resource we can share. When silos are broken, community is built.

### PRIORTIZATION

When it comes time for resource allocation, the campus community can rest assured that they had an opportunity to tell the story of their program. The Showcase allows us to grow collaboratively as intrinsic links between our campus community are highlighted, examined, and discovered. This allows us to place our resources where we can make the most impact for students.

### AMPLIFYING VOICES, EMPOWERING THE CAMPUS

When time and space are provided, voices can be heard. The Program Showcase carves out a dedicated platform to ensure even our smallest programs have space to shine. Participants live their agency by highlighting what matters to them and their students.
